Welcome

Dear Candidate,

Islington is amazing, and we are delighted that you are considering joining us as our Director of Law and Governance.

Islington is a vibrant north London borough with a rich history of challenging norms and inspiring progress. But we know that the advantages of our borough aren't yet shared widely enough. Our purpose is simple – to work together for a more equal Islington, because we believe a more equal Islington is better for all of us.

This is a pivotal corporate leadership role at the heart of lawful, open and effective local government. As the Council's Monitoring Officer and Deputy Senior Information Risk Owner, you will provide clear, impartial and

robust advice to the Chief Executive, Leader, Members and officers, ensuring our constitution, decision-making and governance arrangements are fit for purpose.

You will lead Law and Governance, Elections, Democratic Services, Leaders and Member Support and Business Support services, with four direct reports and responsibility for approximately 180 colleagues. You will champion modern legal and governance services that are transparent, customer-focused and rooted in improving outcomes for residents.

Welcome

We need strong, ambitious and personable leadership: someone who can bring judgement, creativity and confidence to complex political and operational issues. You will oversee council decisions, support democratic processes and elections, uphold the Councillors' Code of Conduct, and ensure high-quality legal advice, support and representation across the council.

You will be a visible corporate leader – partnering with Members and colleagues across the council and place – to translate ambition into delivery. You will model our CARE values – Collaborative, Ambitious, Resourceful and Empowering – and help build an inclusive, high-performing culture where talented people can do their best work.

This is your chance to join a collaborative leadership team, focused on improving outcomes for our residents and communities.

Victoria Lawson
Chief Executive,
Islington Council

Cllr Una O'Halloran
Leader of Islington
Council

Our Values

We care about Islington and the people we serve; it's the reason why most of us do what we do and why we're determined to deliver our purpose. To help create the positive change our purpose demands, we need to be open to change ourselves. To changing how we do things and how we work with one another and our community. We're guided to create that positive change by our shared values.

We collaborate

We work together. In everything we do we break down boundaries and siloes, and collaborate across teams, disciplines and service areas. We collaborate with our community too, co-creating hand in hand with residents and partners. We seek out difference, embracing Islington's rich diversity, because we know that better ideas and faster progress come from a mix of perspectives, representative voices and real life, lived experience.

We're ambitious

We have an ambitious purpose that demands change. We pour all our energy and passion into making that change happen. We do what we say we'll do. We commit. We walk the walk, and we follow through. We work hard to create positive impact, tangible outcomes and lasting change. We deliver for our colleagues and our community and make the effort to show how our work makes a difference.

We empower each other

We can't do everything on our own. To deliver our purpose we need to plug into the energy, ideas and experience in Islington, inside the council and our wider community. To get the best out of each other, we're open, straightforward and transparent. We share information. We enable. We pass on power and create space for others to influence and lead. We listen and we're not afraid to ask tough questions, admit when we're learning and let more people into our decision-making processes.

We're resourceful

To create the momentum our purpose demands we need to be creative, agile and fluid in how we work. We harness our energy and enthusiasm to make our resources go further for the people we work with and the people we serve. We use our ingenuity to think ahead connect things up and deliver services that create more positive change.
